Read's Cavern  
Tankard Bands / Handle

- Does catalogue state location area of handle? i.e. was it with or near bronze bands.
- There is only 1 handle.
- Closest parallel is Pentuan PPS 1952 18(2), 96, & Pl. 9(11)
- Bronze bands found with decayed wood - powdery - not charcoal.
- P has 3 bands + 4<sup>-</sup> inside & overlapping rim. It is not clear whether the inside band was ribbed but might well have been.
- Read's bands are 4<sup>+</sup> in PVBSS 1(1) pl. 9 3 appear to be similar while 4<sup>th</sup> has slightly different section but bands were 2 pairs thick & thin.
- Suggest reconstruct drawing should show only 1 handle with top fixing to some form of loop / staple in wooden rim - ? a modification of ~~the~~ the Newstead handle (PPS 1952, 18(2) (Pl. 9.3))
