MOUND: A mound is a mound about which there is some doubt as to

This is a copy of the original record of the site and should not be used for publication purposes.

Barrows:- Gloucestershire and Somerset.

Since this catalogue was first constructed two major papers on the barrows of the two counties have appeared. These cover all the known barrows at the time of publication of the papers and much detail is given. The lists are quite detailed and are based on parishes.

O'Neil Helen and 1961 Gloucestershire Barrows. Trans Brist & Glos
Grinsell L.V. Arch Soc. 79(1), 1-149

Grinsell L.V. 1971 Somerset Barrows, Part II: North and East.
Proc. Som. Arch Soc and Nat. Hist Soc.
115(2) Supplement 44-137

For Gloucestershire the concordance is entered as simple numerical lists.

For Somersetshire the individual concordances are entered in RED against the "parish" by prefixing 'G' before the parish name and the number according to Grinsell in the parish after the name of the parish. There are some discrepancies between the two lists. This applies to locations in parishes. UBSS catalogue was based on boundaries up to 1930. LVG has used the boundaries as amended in up to 1960.
