LOCATION

REFERENCES

Site visited. ca 1972

Use of site as a quarry had stopped. Face was  
much as it was in 1944 except for weathering  
It is not likely to be quarried further in the  
at all and not in the direction where it may  
be supposed other graves may be

Corton Cist I. Proc. # 1933, 4(2) p. 136  
Probable natural trench [gull] is described  
Dept 2' - 2'9" - runs approx N-S

A detailed description of trench & pits is given and conclusion is that they "may not be artificial pits at all".

- 1 Sundry finds from the trench and pits. Group obtained are all from "trench" and include nondescript pieces of flint and one ~~small~~ minute pot sherd that could be beaker. *EH*
