Situation

Som. 18N.W. Blackdown. Close to T5

Soil and Sub-soil limestone shales.

Local Name

County

SOMERSET

Parish

Burrington
G. Burrington 2

Roundabout 1926 a trench was dug in this rather indefinite shaped mound. A burnt burial was found near the centre. About 1936 burnt

the barrow was trenched to edges of mound by Dr. Taylor. No finds. May 1954. When all undergrowth burnt the edges of this mound very indefinite and the main part, or perhaps another separate mound appears immediately to the north. This part has on it some largeish pieces of silicified limestone.

Moore's Modern Methods Ltd., London

To repeat order state 5" x 8" Faint

REFERENCES

D. Taylor's negatives show his re-excavation, which involved about $\frac{1}{2}$ the barrow, was in 1935. He records also that EKT found 'a crude flint knife near centre [ca 1926]

Structure was a cairn with covering of peaty soil.
No finds made by D. Taylor save remains of cremated burial in central or near central pit.
No dating evidence

Ranging poles in ft. Photograph suggests that there was a very shallow ditch to right of right ranging pole and even perhaps (??) a very very low bank partly covered by rt. ranging pole.
