

## Report for the Twelve Months ending December, 1924.

During the past year the Society's activities have proceeded steadily and successfully. The New Year, Easter and Summer Camps at Burrington, and the Sessional meetings have all been well attended ; brief notes on the latter appear at the end of this number.

We have been very fortunate in discovering a skull in the Oxford University Museum, which was taken from Aveline's Hole, Burrington, by Dean Buckland. We are deeply indebted to Mr. L. H. Dudley Buxton for his report on this and some other skulls.

A noteworthy feature of the past year's work was the expedition to the Wye Valley ; in spite of bad weather, very successful excavations were carried out.

A large number of books has been added to the Library by presentation, exchange and purchase ; our thanks are due to Dr. Hugh Thursfield, M. le comte de St. Périer, Messrs. W. H. Ackland, S. B. Adams, A. L. Armstrong, Baker and Son, H. E. Balch, E. C. Browne, O. G. S. Crawford, B. A. C. Crook, D. M. Cushing, J. A. Davies, F. Elgie, A. G. Heron, T. F. Hewer, M. A. C. Hinton, J. W. Jackson, F. Langford, L. S. Lee, L. W. G. Malcolm, F. Oswald, L. S. Palmer, H. B. Peet, C. B. Perry, R. F. Read, T. Sheppard, F. H. Smith, P. B. Symonds, H. S. Thomson, E. K. Tratman, F. B. A. Welch and Miss K. M. Willmore.

We are especially indebted to Mr. J. E. Pritchard for his generous gift of three volumes of General Pitt-Rivers' works, and to the Pre-historic Society of East Anglia, the Torquay Nat. Hist. Society and the Yorkshire Ramblers Club for their munificent exchange of past numbers of Proceedings.

We wish once more to express our thanks to the Colston Research Committee of the University for a grant of £40 for continuing the activities of this Society ; without such financial aid it would be impossible to meet our necessarily heavy expenses. We desire also to express our thanks to the Guild of Undergraduates for a grant of £30.

T. F. HEWER,

*Hon. Secretary.*
